

Fraser Basin Council

Climate Considerations for Asset Management

WORKSHOP SERIES

September 26th and October 3rd 2023

What is the Fraser Basin Council?

- We are a charitable non-profit society established in 1997
- We support governments, businesses, and community organizations in advancing collaborative solutions to sustainability issues
- Facilitator and Strategic Convener, Educator, Program Manager

About the Northeast Climate Resilience Network (NECRN)

- A collective of six local and regional authorities which came together in 2018 in response to the urgent need to prepare for future climate risk.
- Aims to improve collaboration and communication on climate resilience and adaptation in Northeast BC.
- Meets virtually, approximately four times a year.

Thank you to our funders!

This initiative is offered through the Municipal Asset Management Program, which is delivered by the Federation of Canadian Municipalities (FCM) and funded by the Government of Canada. We want to thank FCM and the Government of Canada for their generous support!

Pinna Sustainability

Learning Objectives

- ▶ Increase familiarity with content and application of NE region climate projections
- ▶ Increase awareness of asset management and how to incorporate climate change into asset management
- ▶ Review and deepen knowledge of *FCM's Asset Management Readiness Scale* and *Guide for Integrating Climate Change into Asset Management*

Agenda

Time	Item
9:10 // 50 min	Climate Change Hazards & Trends in Northeast BC
10am // 40 min	Introduction to Asset Management
10:40 am // 10 min	BREAK
10:50 am // 30 min	Asset Management Planning
11:20 // 35 min	Overview of Climate Hazards and Impacts on Municipal Assets and Services
11:55 // 5 min	Wrap up and Look Ahead to Workshop #2

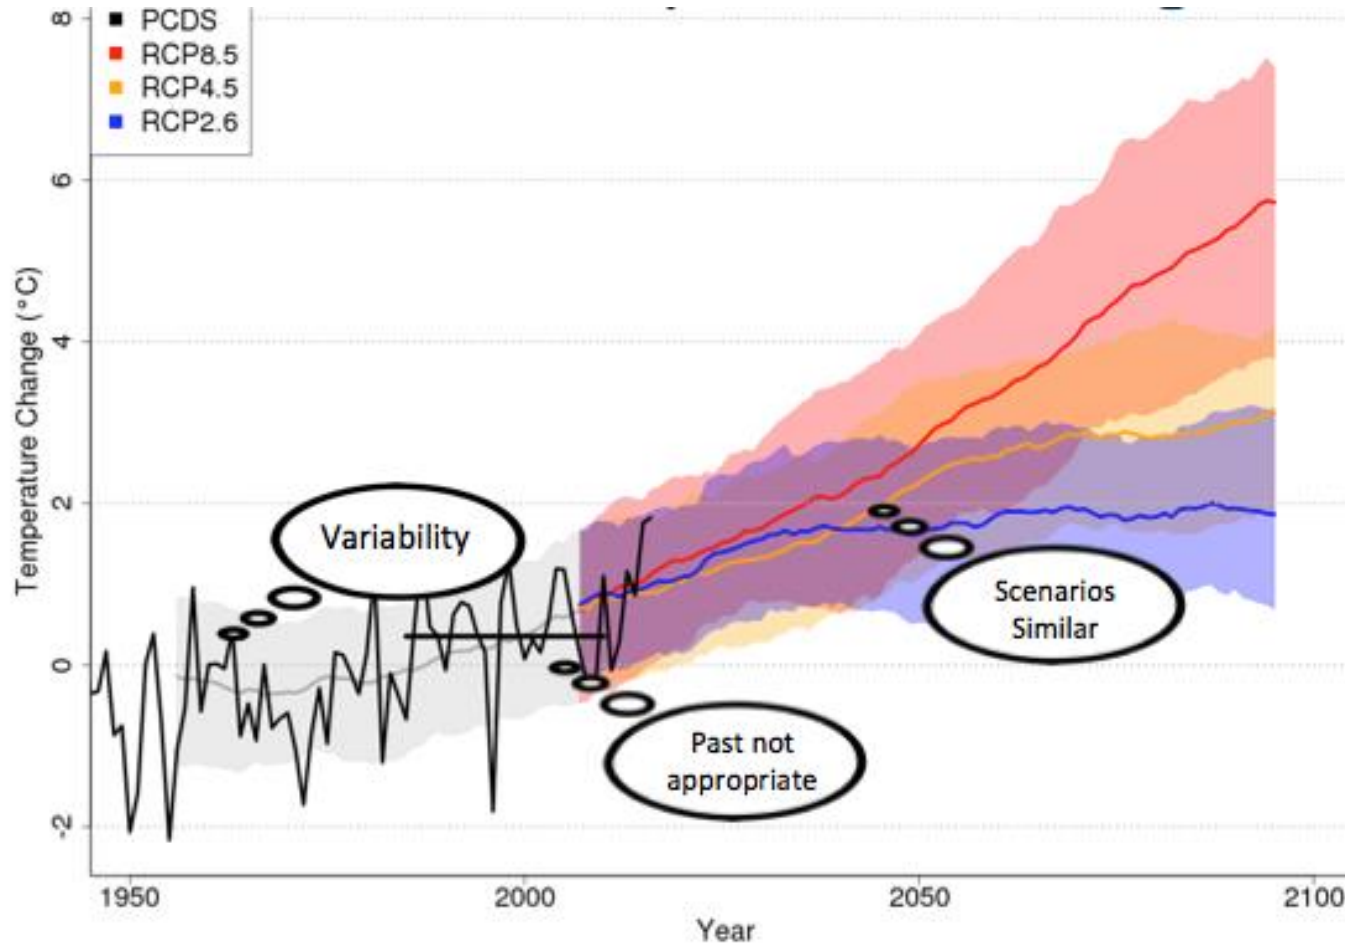

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic visual effect.

Climate Change in Northeastern BC

Hazards, Trends, and Impacts

Climate Change in Northeastern BC

Climate Change in Northeastern BC

Climate Projections Report

► Climate Projections Report

Climate Change in Northeastern BC

Climate Projections Report

Indicator	Past	2050	2080
Days over 25° C	12	20	37
Warmest winter day	8.3C	+1.5	+2.5
Coldest winter night	-38.1C	+6.5	+10.6
Growing season length	145	+33	+53
Spring precipitation (mm)	111	+19%	+26%
Fall precipitation	142	+15%	+30%
Wettest day of the year (r95p)	27	+18%	+23%
Ice days	119	-22	-37

Climate Change in Northeastern BC

Climate Projections Report

- ▶ Summers will be considerably warmer
- ▶ Winter temperatures are also projected to warm
- ▶ Increased precipitation across all seasons
 - ▶ Summer is expected to remain the wettest season

Hottest Day (TXx)

Hottest Night (TNx)

Coldest Day (TXn)

Coldest Night (TNn)

Climate Change in Northeastern BC

What changes can we expect?

- ▶ Heat stress
- ▶ More extreme storm events
- ▶ Reduced summer streamflow

Climate Change Impacts

Impacts of Concern

- ▶ Increase in frequency and severity of wildfires
- ▶ Increased peak flows
- ▶ Extreme heat events
- ▶ Impacts on ecological systems

Figure 11: Average Daily Historical & Future Streamflow in the Murray & Beatton

Climate Change in Northeastern BC

Climate Projections Report

How to read and interpret the report?

- ▶ Projections, not predictions
- ▶ Averages, over 30 years
- ▶ Take note of the range of models
- ▶ Location-specific projections, universal trends
- ▶ Useful for a broad set of decision making

Reflections on the climate emergencies that occurred throughout the summer in Northeastern BC?

Discussion

- ▶ Anything reflection's to share?
- ▶ How has climate change had an impact on you and your work?
- ▶ How has this experience shaped your perspective on how to manage your community's assets?

Asset Management - Review & Refresher

► Welcome Kim Fowler!

- A professional planner and sustainability expert with over 30 years of experience working with local governments in Canada
- Manager of Long-Range Planning, Sustainability and Energy with the Regional District of Nanaimo
- Awarded PIBC's Outstanding Achievement Award for Innovation and Advocacy
- Project manager for the redevelopment of Victoria's Dockside lands
- Took part in the first green roof regulation in Canada

Question & Answer

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the left and right sides of the frame, leaving a large white central area. The shapes are composed of triangles and polygons, some of which are semi-transparent, creating a layered effect.

BREAK!

Asset Management Planning

Asset Management Planning

- ▶ Approaches to asset management planning
 - ▶ Asset Management BC: Service Sustainability Assessment Tool
 - ▶ Federation of Canadian Municipalities (FCM) Asset Management Readiness Scale

Asset Management Planning

FCM Climate Readiness Scale

5 core competencies:

- ▶ Policy and governance
- ▶ People and leadership
- ▶ Data and information
- ▶ Planning and decision-making
- ▶ Contribution to asset management practice

Asset Management Readiness Scale

Levels and Outcomes

Outcome area A

Policy & Objectives

Outcome area B

Strategy & Roadmap

Outcome area C

Measurement & Monitoring

Asset Management Readiness Scale

Outcomes: Select the outcomes that your organization has achieved.					
Outcome areas	Level 1	Level 2	Level 3	Level 4	Level 5
A Policy and objectives	<input type="checkbox"/> Senior management is committed to formalizing an AM program .	<input type="checkbox"/> We have drafted an AM policy . <input type="checkbox"/> Senior management and council have endorsed the AM policy .	<input type="checkbox"/> We are starting to use our AM policy to guide our actions.	<input type="checkbox"/> We manage assets and services in accordance with our AM policy and organizational objectives.	<input type="checkbox"/> We continue to validate and refine our corporate, service and AM objectives based on the evolving needs of our community.
B Strategy and roadmap	<input type="checkbox"/> We have identified the benefits that we want AM to deliver, and the benefits support organizational objectives.	<input type="checkbox"/> We have a strategy for our AM program . <input type="checkbox"/> We have a draft roadmap that outlines our approach for the next 1 to 3 years.	<input type="checkbox"/> We have a roadmap that details the actions for implementing our AM strategy over the next 3 to 5 years.	<input type="checkbox"/> We are achieving our AM policy objectives. The necessary workflows, documents, and reporting tools are in place. <input type="checkbox"/> We update our roadmap to address evolving needs.	<input type="checkbox"/> We follow our roadmap and continually improve our AM practices. <input type="checkbox"/> We document improvements to our AM practices.
C Measurement and monitoring	<input type="checkbox"/> We have identified short-term actions that will demonstrate early progress on AM.	<input type="checkbox"/> We are collecting baseline data on our current AM practices.	<input type="checkbox"/> We have established performance measures to monitor our asset management progress, outcomes, and the benefits to our community.	<input type="checkbox"/> We use performance measures to monitor AM progress, outcomes, and benefits.	<input type="checkbox"/> We monitor performance and use the feedback to prioritize and make ongoing refinements and improvements to AM practices.

Activity 1 - What is Your Readiness Level?

Instructions (15 min)

In groups with your colleagues...

- ▶ Select a competency area and read through descriptions for each level (1,2,3,4,5) for each outcome area (A,B,C)
- ▶ Discuss how outcomes relate to each municipality's current readiness level and what has already been achieved
- ▶ Check boxes with a ★ to indicate readiness level for each outcome area, and take notes on how you've achieved those levels

Outcomes: Select the outcomes that your organization has achieved.					
Outcome areas	Level 1	Level 2	Level 3	Level 4	Level 5
 Policy and objectives	<input type="checkbox"/> Senior management is committed to formalizing an AM program .	<input type="checkbox"/> We have drafted an AM policy . <input type="checkbox"/> Senior management and council have endorsed the AM policy .	<input type="checkbox"/> We are starting to use our AM policy to guide our actions.	<input type="checkbox"/> We manage assets and services in accordance with our AM policy and organizational objectives.	<input type="checkbox"/> We continue to validate and refine our corporate, service and AM objectives based on the evolving needs of our community.
 Strategy and roadmap	<input type="checkbox"/> We have identified the benefits that we want AM to deliver, and the benefits support organizational objectives.	<input type="checkbox"/> We have a strategy for our AM program . <input type="checkbox"/> We have a draft roadmap that outlines our approach for the next 1 to 3 years.	<input type="checkbox"/> We have a roadmap that details the actions for implementing our AM strategy over the next 3 to 5 years.	<input type="checkbox"/> We are achieving our AM policy objectives. Activity 1 - What is Your Readiness Level?

Miro Tips and Tricks

- ▶ Zoom into the Asset Management Readiness Checklist Activity
- ▶ Move around the board with the glove cursor
- ▶ Add sticky notes by clicking the sticky note function on the side panel
- ▶ Instructions are displayed on the side of the Miro board under the region's hyperlinks

Side Panel

Sticky Notes

Activity 1 - What is your readiness level?

Report Back... (10 min)

- ▶ Please share your experience using the Asset Management Readiness Scale
- ▶ Do you have any reflections on how this tool may be helpful to you and your community?

Wrapping Up

Key Take-Aways from Workshop #1

- ▶ Review and (re)familiarize ourselves with regional climate change projections
- ▶ Review asset management principles and practice
- ▶ Review and Apply FCM's Asset Management Readiness Scale
- ▶ Review and apply asset management lens to NE Community Vulnerability Assessments

Wrapping Up

Looking Ahead to Workshop #2

- ▶ Introduction to natural asset management principles, approaches and tools
- ▶ Deepen understanding and ability to apply asset management and natural asset management approaches to prepare for and manage climate change impacts

Conclusion

Thank you!

The background features abstract, overlapping green geometric shapes in various shades of green, creating a modern and dynamic look. The shapes are primarily located on the left and right sides of the slide, framing the central text.

Climate Change & Asset Management

Workshop #2 - October 3rd 2023

Welcome Back!

Key Take-Aways from Workshop #1

- ▶ Review and (re)familiarize ourselves with regional climate change projections
- ▶ Review of asset management principles and practice
- ▶ Review and Apply FCM's Asset Management Readiness Scale

**Guide for Integrating
Climate Change
Considerations
into Municipal
Asset Management**

Agenda

Time	Item
9:15 // 75 min	Natural Asset Management: Concepts and Practice
10:30 // 15 min	BREAK
10:45 // 65 min	Asset Management Planning and Climate Action
11:50 // 10 min	Roundtable Wrap Up

Natural Asset Management

Concepts and Practice

Welcome, Emanuel & Michelle!

► Emanuel Machado

- CAO and Chief Resiliency Officer for the Town of Gibsons
- 20+year career in local government management and administration

► Michelle Lewis

- Canada's first Natural Asset Management Technician
- ISA Certified Arborist
- Master's degree in Urban Forestry Leadership at UBC

The background features abstract, overlapping green geometric shapes in various shades of green, creating a modern and dynamic visual effect. The shapes are primarily located on the left and right sides of the frame, framing the central text.

Natural Asset Management Concepts and Practice

With Special Guests,
Emanuel Machado & Michelle Lewis

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern, layered effect. The shapes are concentrated on the left and right sides, leaving a large white central area.

BREAK!

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic visual effect.

Asset Management Planning and Climate Action

Activity 3 - Applying AM and NAM in Local Climate Action Planning

Purpose

Gain experience in applying the lens of asset management and natural asset management when considering how to prepare for and respond to climate change impacts.

Activity - Applying AM and NAM in Local Climate Action Planning

Instructions (45 min)

In break-out groups, review risk reduction actions and by using a star (★), indicate which actions are related to asset management. Once the review is complete, answer the following questions:

- ▶ How could these actions be advanced using asset management principles, tools, and approaches?
- ▶ What are some challenges in applying AM or NAM approaches to these actions?

Closing Discussion

Group Discussion (15 min)

- ▶ Please share your key take-aways from participating in this activity

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern, layered effect. The shapes are concentrated on the left and right sides of the slide, leaving a large white central area.

Wrapping up

Wrapping Up

Key Take-Aways from Workshop #1

- ▶ Review and (re)familiarize ourselves with regional climate change projections
- ▶ Review and refresher on asset management principles and practice
- ▶ Review and Apply FCM's Asset Management Readiness Scale

Wrapping Up

Key Take-Aways from Workshop #2

- ▶ Introduction to Natural Asset Management Principles, Approaches and Tools
- ▶ Deepen understanding and ability to apply asset management and natural asset management approaches to prepare for and manage climate change impacts

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic design.

Thank you!
